

Message from the Director's Desk:

*“We make a living by what we get; we make a life by what we give. –
Winston Churchill*

Dear Parents,

Children are born scientists and to help children build their scientific thinking skills, science books provide a wonderful opportunity to make insightful observations, raise questions and propose their own explanations based on the evidence. As Parents and educators, if we have science based conversations with children, it will help build their science vocabulary. Its best that we must ask children attention focused questions. For example, “Wow, look at that bird! What is it that you notice about its feathers?” This question isn't too open, your child will focus with you on the bird, but you are actually asking about what he or she sees and what he/she thinks is important and relevant. This can be fun and be filled with surprises as kids often notice things that you haven't.

It was a great engagement with the PP2 children in one such scientific discussion. They shared their posters with me on 'Saving Energy' and shared how they would help spread awareness about the importance of 'Energy'. They all agreed that we need to switch on lights and fans only when needed. To track the wastage of energy, PP2 children have decided to have an 'Energy Saver Leader' who would be responsible for tracking the wastage of energy and also share how we can save energy within the premises.

The Education World India Preschool Grand Jury Awards

encourage and felicitate pre-schools which have introduced contemporary pedagogies and practices in early childhood care and education, especially in smaller non- metro towns and cities.

Indus Altum Early Learning Centre has been ranked 2nd among India's Top 10 Preschools in the category of '**Future Ready Preschool.**' This award has been instituted to felicitate preschools making extraordinary efforts to introduce innovative 21st Century practices in early childhood education.

I am very thankful to the Indus Altum Management, Team, Parents and all wishers for trusting us.

Warm regards,
Ayesha Baig
Director Preschool
