“Nothing can dim the light that shines from within” - Maya Angelou

Dear Parent,

We hope you have had a safe and dazzling Diwali.

October was a relatively short working month for us. We had story telling on the 13th, and we would like to thank you all for preparing your children on their favorite stories. The children narrated with great enthusiasm, and some even dressed as the characters of the story. Some children also brought books, pictures, puppets, picture cards to illustrate and provide visual aids to their narrations which made it especially interesting. They have done exceptionally well and the best ones were recognized with certificates for their performances.

As you are aware, Indus International School is always committed to create and maintain a community in which students, teachers, researchers, faculty members and non-teaching staff work together in an environment free from all forms of sexual harassment, thereby ensuring child safety at all times. This being our utmost priority, we conducted a workshop on Gender Sensitization, Child Safety and Abuse on the 28th of October. The session was officiated by Ms. Hemani and Mr. Ramesh, who are members of 'Break the Silence' – a voluntary organization working towards spreading awareness on child safety and abuse. We would like to thank all those who attended this session and we hope it has given everyone valuable insights into the safety of your child.

We also thank the parents for taking time to attend the coffee morning that was held during the month of October. We are glad to have provided you the platform to share your views and concerns, and will try and do our best to resolve some of these issues and put things in place, while keeping in mind what's best for the children.

Our little ones from Nursery completed their unit on 'Transportation', as a part of which they decorated the UOI corner with interesting craft work that they created while progressing through this unit. They also went on a field trip to tour the nearby railway station and observed different modes of transport which helped them connect with their classroom teaching.

Further, our much awaited Sports Day is coming up next month and it is going to be a collaborated event for PP2, Grade 1 and 2 students including both the main campus as well as the Jubilee Hills branch. The children are busy preparing for this by visiting the main campus for practice and rehearsals. We are proud of their efforts and wish them good luck in their preparations for the event. Our juniors from Nursery, Reception and PP1 will have their Sports day held at the school on 2nd Dec.

We look forward to another month of learning and growing together, and some fun events to brighten us up along the way.

Important dates:

14th November- Children's Day

25th November- Sports Day

Sincerely,

Kiranmayee
