

December 2017

Message from the Principal's Desk:

"Technology will never replace great teachers, but technology in the hands of great teachers is transformational" ~ George Couros

Dear Parent,

Greetings! Wish you a very happy and a prosperous new year! I hope everyone had a wonderful time and enjoyed the winter break! December was a short and a joyous month, children had a lot of fun at the Christmas carnival by dressing up in red and white and spreading the festive cheer.

One of the most debated topics in schools nowadays is 'what role should technology play in education?' Technology is a way of living. It has become an intrinsic part of our lives, changing how we work and most importantly how we learn. Technology has made its way into education.

Educational technology is "the study and ethical practice of facilitating learning and improving performance by creating, using, and managing appropriate technological processes and resources".

Education Technology has the potential to change the process of education for the teachers and students. It helps teachers in streamlining, enhancing and reducing their time on lesson planning, communication, record keeping and reporting.

Our CEO, General Arjun Ray lays great emphasis on the impacts of technology on education. As facilitators of learning, teachers provide better student engagement and skills with technology as a part of their everyday teaching. Relevant and appropriate use of technology in education to develop knowledge and skills of the students is what matters the most.

The most important thing that teachers and schools can do is to use technology effectively to continue inspiring and engaging students. Technology is an automated tool but when applied to enrich a student's learning with a human touch can change a child's future.

"If we marry educational technology with quality, enriching content, that's a circle of win." Levar Burton.

Important Dates

2nd January- School Reopens

15th and 16th January- Sankranti

22nd January- PAC Meeting

25th January- STEAM & DT Exhibition

30th January- Term 2 Reports go online

31st January- Term 2 PTM

Yours Sincerely,

Nuwaira Pasha
