

March, 2018

Dear Parents,
Greetings!

Student responsibility occurs when students take an active role in their learning by recognizing they are accountable for their success. Students make choices and take actions which lead them toward their goals. Each student's ability to learn and gain from his/her experiences depends upon an environment which is conducive to learning and activities which are consistent with the objectives of an institution.

The month of March began with the festival of **Holi**, where students came dressed in their traditional clothes and played with flower petals, further imbibing the spirit of happiness, togetherness and celebrations!

On 6th March, 2018, selected students from grades 1-3 attend the **PYP visual arts fest/ workshop** organized by the PYP Hyderabad network. They participated in a range of workshops lead by experienced art teachers in portrait making, soft pastel colouring, collage making, clay modeling and pottery. Apart from this, our students also had the opportunity to interact with students from other IB schools of the city, who were attending the workshop.

The students celebrated **International Women's Day** talking about famous women and the ones in their lives- their contributions and the attributes they demonstrate or reflect. Students of grade Nursery and PP1 prepared scrolls and cards for their favourite women in their lives. Students from grade PP2 did an in-class quiz discussing importance of women around the world and their achievements, while grade 1 prepared thank you cards for all the school faculty and staff. Students of grade 2 prepared hand-written cards for our housekeeping staff at school, while grade 3 hosted a special assembly sharing their research on celebrated women from diverse fields and also reflected on the attributes of the learner profile.

Saturday sports programme continued to see students put in sincere efforts to train and excel in cricket, basketball, football, tennis and swimming!

The month of March was the month of practice and preparation for **Indus Day!** Our students put in hard work, time and much thought as they prepared to put up the stories of Peter Rabbit and Mary Poppins. All students from Nursery to grade 3 participated in Music, Dance and Drama. The entire Indus team came together to ensure that their evening remains to be a memorable one for years to come!

Professional Development- Teachers shared presentations of their learnings and experiences from attending the IB in school workshop –Play Based Learning to implementing the best practices and learning in their classrooms with their colleagues. The IB In workshop on Play Based Learning was conducted by Ms. Alison Flinchum from GESS Preschool, Singapore. This was followed by a sharing session by Ms. Kriti Mathur, PYP coordinator, who recently attended the IB Regional Workshop in Mumbai.
